and Bridgeport, Conn.; a hose cart for
chemical engine and hose cart for New Bed-
ford, Mass. Under construction are a chem-
ical wagon for Greenwich, Conn., and a
second car to go to Waterbury.

The Locomobile recently delivered to the
fire department of St. Louis, Mo., is working
side by side with a 1905 car of the same
make, both doing excellent service, a good
illustration of the durability of the product.

BUICK RACING TEAM WINS COVETED LAURELS

**Strong and Burman Make Records for
Both Themselves and
Their Cars.**

The recently organized Buick racing team,
headed by Lewis Strang and Bobby Burman,
has been winning more than its share of
victories during the last six weeks.

Following closely Burman's 100-mile track
championship title, won in 102 minutes on
the New Orleans circular track with a stock
car, Strang captured two events at Daytona
Beach, each at a distance of 100 miles. In
one of the races Strang covered the distance
in 90 minutes with a \$1,750 stock Buick.

George De Witt, the Jacksonville amateur,
driving his \$1,000 Buick, also won two 100-
mile races at Daytona, finishing with the lit-
tle Buick in 99 minutes. Both De Witt's
and Strang's time is several minutes under
the previous world's records for stock cars.

In the Atlanta, Ga., hill climb, Strang won
the event for cars selling \$3,000 and under
with his \$1,750 Buick, doing the mile climb
of a steep grade in 58 3-5 seconds and break-
ing the course record for equipped stock
cars. Strang also won the \$5,000 and under
class with the same car in 59 seconds. Two
little Buicks ran first and second in the
\$1,000 class event. Bobby Burman won the
event for \$5,000 and under touring cars with
his \$1,750 Buick.

Burman will defend the Buick colors in
the Ft. George hill climb and the other
carnival week events in New York the last
week in April, while Strang and Louis Chev-
rolet will take in the big Lookout Mountain
climb and track meet in Chattanooga, Tenn.,
the same week.

LIKES READY-MADE GARAGES.

**Firm Starts Novel Feature of Interest to
Owners.**

Automobile owners have always been in-
terested in cutting down expenses, particu-
larly in storage costs, which are among the
heaviest in the upkeep of the automobile. To
the man who wants his machine where it
will always be available, who cares to know
where his machine is at all times and who
wants to have the best possible service at
the minimum cost the "garage at home" is
the one solution of all these problems.

There are times when you want your
machine in a hurry, and having it in your
garage at home with prompt service is the

and combines that e
finish and comfort in
in a car worth double

CADILLAC THIRTY WINS REDLANDS HILL CL

Finishes Sixteen Miles, With Ris
3,800 Feet, Five Minutes Leading
Rivals.

The big event of the year in southern
California motor circles is the mile-high
climb, which was held Saturday, April
Redlands, Cal. The course this year
sixteen miles in total length, and the r
that distance was 3,800 feet.

The Cadillac "Thirty" entered by the
Motor Car Company, Los Angeles Ca
representatives, defeated all other cont
cars in the same price class, some of
