NEW YORK, October 21.—With nine days
to elapse before the race occurs, practice
for the Vanderbilt cup was begun by four
of the drivers yesterday. Although none
of the drivers had any experience over the
newly selected circuit, fairly fast time
was made. Matson and Dingley, driving
Chalmers-Detroits, made approximately a
mile a minute in their best laps. Both
claim that when they become familiar
with the turns they will have no trouble
in surpassing their initial day's figures.
The other drivers were Knipper, also in a
Chalmers-Detroit, and Harding, in an
Apperson.

During the three hours given over to
practice flagmen were stationed at all
road intersections, and all traffic was ex-
cluded until the racers were back at their
quarters.
