by club contributions is a mockery upon the spirit of fair play which is alleged to exist in England, but which spirit does not exist

It is true that the entry of Titus is not indorsed by either the National Association of Amateur Oarsmen or the American Rowing Association, the chief ruling bodies of this country, but then West of Philadelphia went to Henley last year without official indorsement other than the Indino Boat Club of the Quaker City and if West, why not Titus? The latter is a better sculler than West, however, and that may be one of the chief reasons why they do not want him along the noble Thames.

VANDERBILT SHOWS HORSES.

Sails for England to Prepare Animals for EXHIBITION.

NEW YORK, June 1.—Alfred Gwynne Vanderbilt has sailed for England to prepare his horses for their appearance in the International Horse Show in London. The show opens on June 7 at the Olympia and continues to June 13, and is to be followed by a succession of shows in various parts of England as well as on the continent, in which the Vanderbilt horses as well as other American strings to show in the international, will compete.

The show will take place between the Derby and Ascot meetings, when all England is hurrying back to London for the opening of the social season. With the interest of King Edward and the active identification of the best known of the nobility with the show, society will flock to it.

The hall is to be elaborately prepared for the event, and everything is being done to attract the best interest. Besides the Vanderbilt string America will be represented by the string of C. W. Watson of Baltimore, and horses owned by Mrs. Francis Francis, Albert B. Maclay, F. H. Wetherbee, George B. Hulme, Thomas S. Watts, Richard P. McGrann and J. C. Clausen. Canada will be represented by an extensive string owned by Adam Beck.

DURNELL NOT WITH GATES.

Boots Does Not Apply for a License in the East.

NEW YORK, June 1.—"Boots" Durnell will not train for Charlie Gates, despite a statement recently published to that effect. Experts say Durnell's own colt, Nealon, probably would show better if his owner could train him, but he did not apply for a license this spring in the East. Because a trainer's natural employment is to train there are many stories concerning Durnell's plans.

One is that he recently asked two well-known trainers to sign an application for a license, but both declined. Another report is that he is to go to France to buy horses, but Durnell's last experience in France was so generally known here that not much cre-
