## NO PUNISHMENT FOR THE GUILTY DELEGATES GET DOWN TO WORK

Tulloch Charges Have Been Thoroughly Investigated. Three Sessions of the Mining Congress at Lead, S. D.

SPECIAL COUNSEL EMPLOYED NOTABLE ADDRESSES MADE  
UNCERTAIN WHETHER THE REPORT WILL BE MADE PUBLIC. PORTLAND WANTS CONGRESS NEXT YEAR.

WASHINGTON, Sept. 9.—By direction of President Roosevelt a thorough investigation has been made into the charges preferred by Seymour W. Tulloch against the management of affairs of the Washington (D. C.) postoffice. This investigation has been made by C. H. Bonaparte and James Conrad, special attorneys of the government in the prosecution of the postoffice fraud cases, and it is independent of and entirely supplementary to the report made by Fourth Assistant Postmaster General Bristol on the charges preferred by Mr. Tulloch. Mr. Bristol's report, Mr. Conrad says tonight, was simply a collection of the facts in the case as reported by postoffice inspectors, and contained no opinions as to the merits of the charges. The investigation made by Messrs. Bonaparte and Conrad will go into the merits of the charges and will express an opinion as to whether or not the accused persons are indicated or are guilty of the offenses charged against them.

**Statute of Limitations.**  
The conclusions drawn from their inquiry will be submitted to the attorney general later part of this week. Whether or not this report will be made public, Mr. Conrad could not say today, as that matter rests with the officials of the administration. No prosecutions will follow from any conclusions the report may contain, as the statute of limitations has expired. Mr. Conrad said that he and Mr. Bonaparte had been engaged for five weeks in the inquiry. They had examined thoroughly all the papers in the subject, both in the treasury and the postoffice departments.

**Trying to Get at Facts.**  
The president, said Mr. Conrad, was very anxious that the whole matter should be gone over very carefully so that persons named in the charges should be acquitted and if they were that this fact should go on record. That this fact had been to act in the capacity of a matter in the inquiry and report on the facts as they found it. Mr. Conrad declared, but an honest desire to get at the facts in the case, both as to the Republicans being involved in the inquiry. The inquiry was not intended to have the matter thoroughly sifted, and any criticism, credit or blame arising from the inquiry would be borne by the subject, both in the treasury and the postoffice departments.

**Body of Baby Found**  
San Francisco Police Trying to Unravel a Telegraph Hill Murder Mystery.

San Francisco, Sept. 9.—The police are searching for the murderer of the infant whose dead body, wrapped in a newspaper and with a cord firmly knotted around its little neck, was found in a vacant lot on Telegraph Hill late yesterday afternoon. So far the police have unearthed no clue beyond the fact that the newspaper in which the little body was wrapped bore a yellow label bearing the name and address of John K. Jones, Washington, Ark., and immediately under the words "The Bulletin." The newspaper was a copy of the Evening Times of Buffalo, dated Aug. 13, 1903. The detectives have a theory that the mailing clerk of the paper was careless and that the slip bearing the name of Senator Jones was inadvertently pasted on the paper and that the paper came to this city among the exchanges of the Evening Bulletin. It is the custom for the newspapers to dispose of their waste and extra papers through several channels and it will be very difficult to trace the slip which the murderer or murderers through the means of the newspaper.

## DEADLY WORK OF OHIO CAMPAIGN RACING MOTOR IN FULL BLAST

Spectator Horribly Mangled While Watching a Race. Stirring Speeches by Johnson and Clarke at Akron.

ONE OF THE TIRES EXPLODED MARK HANNA IS SHOWN UP  
DRIVER HAD A NARROW ESCAPE GOVERNMENT BY INJUNCTION AT CLEVELAND.

DETROIT, Mich., Sept. 9.—While Barney Oldfield's racing automobile was running nearly sixty miles an hour at the Gross Pointe track this afternoon, the ten-mile open event, one of the front tires on the machine burst through and exploded, throwing the car into the fence and injuring Frank Shearer, the spectator, so terribly that he died in an ambulance en route to a hospital. The car went fifty feet through the air, and Oldfield, who had his seat belt fastened, escaped from death. He received several cuts about the body and had one rib broken.

It was an afternoon of accidents at the track, two other high power machines, those driven by Harry Cunningham and Henry Yeage, the Parisian, coming to grief because of their tires. Fortunately, no one was hurt in either of these accidents.

Oldfield's sparker gave out a few feet from the tape in the race during which the accident occurred, and Oldfield lost nearly two miles before he stopped the machine and started after Harry Cunningham, the only other entry. The tires of the machine were the same ones of which Cleveland has been so fond, and he was turning into the stretch on his seventh mile the friction on the right front tire burst through and it exploded. The track is banked high at the turn, and the car, with its tremendous momentum, shot for the outer edge of the track, which is six feet above the ground beyond.

Although seven houses became ignited at different times, one of them being on fire on four occasions, the flames were extinguished in all cases. Tonight the danger of De Lamar's destruction seems to have passed, although the fire has leaped Squaw creek and, fanned by a stiff north breeze, is racing towards Copper City, a small town, in about ten miles south.
