AERONAUT DIES IN WATERS OF CREEK

Paul Nocquet, Who Made Daring Balloon Ascension at New York, Loses His Life.

FOUND BY LIFE SAVERS

Noted French Sculptor Made Brave Struggle Against Death.

NEW YORK, April 4.—Death in the waters of Bass Creek, a small stream winding through the meadows along the south shore of Long Island between Jones's Beach and Amityville, ended the daring balloon ascent yesterday afternoon of Paul Nocquet, a French sculptor of note and an enthusiastic amateur aeronaut.

The body was found tonight on the muddy shore of the creek where the tide had left it, and not a great distance from where Nocquet's collapsed balloon was discovered late last night by the life savers of Jones's Beach.

The discovery of the body put an end to a search which had included ocean, land and marshes. Nocquet apparently landed safely with his car and in fighting his way out of the meadows in the darkness had traversed about two-fifths of the distance from Jones's Beach to Amityville, several miles, when he died. He had crossed thirteen or fourteen different islands and had swam or waded through the runlets that separated them.

That Nocquet traveled as far as he did is regarded as wonderful. He must have struggled the last mile of the two he traveled under fearful difficulties. He essayed a trip that few men could possibly complete in daylight. The valvically controlling ropes of the balloon when found indicated that the descent had been started by Nocquet's action and that it must have been gradual. When Nocquet started on his flight yesterday afternoon the wind was blowing out to sea. This meant that unless he should come down after being up but a short time—having started from the Bronx—he would surely be blown across Long Island and out over the ocean.

Balloon Lost to View.

The balloon in its flight passed over Jamaica, Garden City, Westbury, Jericho and Cold Springs Harbor, then darkness came and shut it from view.

Nothing further was heard of it until its discovery on Jones Beach was announced today.

Capt. George Smith of Amityville, who had joined in the search early in the day, located the body tonight on the muddy bank of Bass Creek and made it fast to a stake. It will be taken to Amityville tomorrow after having been viewed by the coroner.

Paul Nocquet had made many daringly successful attempts at aerial navigation. He is almost as equally well known as an author, sculptor and an artist. Wide attention recently was attracted to his work as a sculptor by a bronze figure of President Roosevelt entitled "A Presidential Vacation."

Nocquet was born in Brussels in 1877 and at the age of 14 studied painting under Jean Portaels. Soon afterward he turned to sculpture, and at the age of 20 won the grand prize of Belgium, which gave him a three years' fellowship in Paris. In Paris he also became interested in aeronautics, and before he came to this

CHARGE AGAINST CLUB MAN

George C. Benham, Prominent in Muncie Society, Held by Police to Await Prosecution.

MUNCIE, Ind., April 4.—George C. Benham, the deposed secretary and general manager of the Muncie Garment Company, who has been charged with gross irregularities in conducting the company's affairs, was taken into custody tonight on suspicion that he intended to leave the city in order to escape threatened prosecution. It is charged by other members of the company that Benham made false invoices, erroneous entries in his books and other misrepresentations in conducting the business. The speculations charged against Benham will probably never be

Capt. George Smith of Amityville, who had joined in the search early in the day, located the body tonight on the muddy bank of Bass Creek and made it fast to a stake. It will be taken to Amityville tomorrow after having been viewed by the coroner.

Paul Nocquet had made many daringly successful attempts at aerial navigation. He is almost as equally well known as an author, sculptor and an artist. Wide attention recently was attracted to his work as a sculptor by a bronze figure of President Roosevelt entitled "A Presidential Vacation."

Nocquet was born in Brussels in 1877 and at the age of 14 studied painting under Jean Portaels. Soon afterward he turned to sculpture, and at the age of 20 won the grand prize of Belgium, which gave him a three years' fellowship in Paris. In Paris he also became interested in aeronautics, and before he came to this country had come to be considered one of the most daring members of the Aero Club of France. Two years ago he planned to attempt to cross the Atlantic Ocean in a balloon, but was deterred by friends.

Among Nocquet's well-known works in sculpture are "Effort" and "Football Players," which have been presented to Columbia University. He was awarded third prize for a bronze door for the Naval Academy at Annapolis.

IS TRAPPED BY WIFE

SHE WORKS CLEVER SCHEM

Now Samuel Snodgrass, the Husband, Is in the Hands of the Police.

Through the cleverly laid plan of his wife, after she had followed him over a considerable portion of Indiana, Samuel Snodgrass, a traveling man of Chicago, was arrested at the Sherman House last yesterday afternoon by Sergts. Warren and Barmfuhrer as a fugitive from Lafayette, where he is wanted on charge of assaulting and deserting his wife.

Snodgrass travels for a Chicago publishing house, his business bringing him in contact with school teachers. His wife, Kathleen Snodgrass, an attractive young woman, was formerly well known in society at Chattanooga, Tenn., where she lived when she was married four years ago.

Mrs. Snodgrass traveled with her husband considerably when he made business trips until Feb. 14, when he is said to have deserted her at the Stockton, H.
