DENOUNCE MAYOR HOSEY

PASTORS AND PAPER "SORE"

Ministers Demand Explanation for Law
Violations, While Newspaper Which
Elected Him Says Editorially
It Was "Gold Bricked."

FT. WAYNE, Ind., Jan. 22.—The
Ministerial Association, consisting of all
the protestant preachers in the city,
called upon Mayor Hosey this afternoon
asking him why he did not enforce the
Sunday closing law. They charge that
the saloons were open all day, theaters
gave regular performances and that other
law violations were flagrant.
Mayor Hosey listened to the ministers
attentively, but he gave them no encour-
agement. This evening the Sentinel, one
of the leading Democratic papers of the
city, denounced Mayor Hosey editorially,
stating that Mayor Hosey had
violated the recommendations of the

tion of the convention there is but faint
hope that the scale as finally agreed upon
will be accepted by the operators. The
latter are stronger than ever before and
the impression is growing that their fight
will be all the more determined.
Mr. Mitchell's wonderful influence over
the members of the United Mine Workers
was further demonstrated yesterday when
the resolution regarding the Western
Federation of Miners was brought before
the convention. Through a letter sent to
Delegate A. F. Gerner the charges made
against President Mitchell last year by
Delegate Randall were reiterated. Presi-
dent Mitchell's anger was aroused and he
bitterly resented the charges of falsehood
and together with other members of the
convention unmercifully flayed the West-
ern Federation.
By careful watchfulness on the part
of spectators who have attended every
session of the convention, in connection
with the report of the scale committee,
the significance of the anthracite move-
ment was not neglected, and it is be-
lieved that the recommendations of the
committee, which have heretofore been
forecasted and which were adopted by
the action of the convention, will govern
in the conference with the operators.
The recommendations of the scale com-
mittee in regard to the matters which
interest the general public did not differ
in any way from what has been here-
tofore forecasted. These are the 12c

MILLIONAIRES EASY FOR COL. W. D. MANN

Vanderbilt, Morgan, Schwab and Gates All Lenders to Editor of Town Topics.

LIBEL CASE NEAR ITS CLOSE

Society Journalist Fiercely Flayed Before Jury.

NEW YORK, Jan. 22.—After forcing the admission from Col. William D. Mann, editor of Town Topics, that he had borrowed sums aggregating nearly \$200,000 from the big financiers of the city and Nation, James W. Osborne, counsel for the defense, in the suit for criminal libel brought by Justice Joseph M. Deuel against Norman Hapgood, editor of Collier's Weekly, assailed Col. Mann as a "king of assassins" and "a slayer of reputations" in his address to the jury.

In the trial today Col. Mann admitted that he had borrowed the following amounts from these financiers, giving notes signed by himself or Town Topics

HUNTS FOR HER FATHER BELIEVES HIM BADLY HURT

In Response to Message Telling of Accident Cincinnati Girl Hurries Here but Meets Papa at Union Station Very Much Alive.

All the attaches at the Union Station and patrolman Hite, who "runs" near the station, were kept busy for a short time early yesterday morning trying to locate the mangled body of F. H. Almsworth, State agent of the C. H. & D. Railroad, and the father of pretty Katherine Almsworth, who lives at 106 West South street, Cincinnati. Now Miss Almsworth is conducting an investigation to find out who it was that sent a fake telegraph message to her at her home.

Arriving on a late train the tearful young woman announced to the matron that she had received a message stating that her father, located temporarily in this city, had been badly injured in an accident. She feared he might die before she could see him. Immediately the telephone was sought and clerks at the various hospitals and at the City Dispensary were aroused, but none had heard of Almsworth.

The telegram had not stated where Almsworth had been taken, and as the young woman did not know where he was staying while here, she was about to give up in despair, when she met her father in the station very much alive and apparently in good health. There was a happy reunion. Miss Almsworth remained in the city with friends until last night, when she returned to Cincinnati. She said she would make an attempt to find the person who played the joke that caused her so much agony. She formerly lived here on East Washington street.

SCALE COMMITTEE MAKES ITS REPORT

Contrary to Precedent Demands of Miners Are Announced in Open Convention.

TERMS TO BE ACTED ON TODAY

Opposition of Operators to Proposed Scale Apparent.

There is no longer any doubt as to the demands that will be made by the United Mine Workers in their joint conference with the operators of the central competitive States. The scale agreed upon for the bituminous field was submitted in its entirety to the open convention of the delegates yesterday afternoon, contrary to all precedent. These recommendations will be taken up for consideration by the convention at 9 o'clock this morning.

In the main it is believed that the report of the committee will be satisfactory to the convention, though there will doubtless be considerable discussion by delegates from the various States who are differently affected. But whatever the ac-
