# Free Repairs WHEN Necessary

On the King of All Light Runabout Automobiles

## *The "Maxwell"*

We will keep in repair free of charge (until January 1, 1907), all 1906 MAXWELL Runabouts bought from us. We will also refund all money which has been paid us for repairs on 1906 MAXWELLS by present owners. This offer does not apply to cars damaged through accidents or to tire repairs. Customers to pay express charges only on any parts needed.

We take this method of correcting the prevailing impression that ALL automobiles are expensive to own and operate.

The MAXWELL is the BEST, LIGHT, LOW-PRICED CAR in existence, else how could we afford to make this unusual offer?

The MAXWELL derives its high efficiency and reliability at the smallest cost for maintenance from the following principal exclusive features:

**1.—Double opposed motor in front**, where it is instantly accessible and perfectly protected from flying dirt. This engine runs as smoothly as a four cylinder and has ample power.

**2.—Shaft and bevel gear drive.** Noiseless, efficient, and requires no attention except lubrication once in five or six weeks. Not a link of chain in **THE MAXWELL**. Chains have been the bane of the motorists' life. When dry they rattle and consume half the power of the engine, (results at Purdue University testing plant,) when lubricated, road dirt and sand sticks and cuts out chains and sprockets like emery. Result, broken chain, usually in a mud-hole. Such a lovely mess!

**3.—Metal body**, will not warp, crack, split, or change its beautiful shape under any circumstances. Takes a superior, lasting finish.

**In regard to deliveries**—We are now six car loads behind orders on the Maxwell, but can deliver the next fifty sold within twenty days.

We are the largest and oldest auto dealers in the West and our reputation for the best autos at the best prices makes it to your own best interests to see us before you buy.

GRAND RAPIDS, Mich., June 16.—Wheeling was slaughtered today, Grand Rapids winning the game by a score of 14 to 1. Miller, who pitched for the Champions, was pounded all over the field and the sum total of the batting streak on the part of the locals was nineteen hits. Manager Ganzel has sent infielder Stark back to Flint in the Interstate League, and will retain Kelly. Score:  
Grand Rap. 0 0 1 1 5 0 4 8 0—14 19 0  
Wheeling... 0 0 0 0 1 0 0 0 0—1 7 3  
Batteries—Warner and Howley; Miller and Schriver. Umpire—Rigler.

SPRINGFIELD, 7; EVANSVILLE, 0.  
SPRINGFIELD, O., June 16.—The ability of the locals to bunch hits on Long and the luck of being able to play sharp ball when the Giants threatened to score won the Infants a well-earned game from Evansville this afternoon, the score being 7 to 0. Chambers, the young College twirler worked by Hendricks, gave a good account of himself, and on his showing will stick with the team.

Our showing of stylish and sturdy vehicles is varied enough to fill every demand.

SPLENDID line of runabouts and summer traps at exceptional prices. Also brakes, surreys, phaetons, stanhopes, carriages, rockaways and two and four-wheel vehicles of every description. Our unexcelled stock represents the greatest value and widest choice of models. The reputation of this firm for good styles, reliable quality and reasonable prices is well established.
